

The Sundirect PE-Plus series is a basic version infrared heating panel and offers great value for money. The white aluminium surface and white powder coated frame offer a slim design suitable for residential and commercial installations. Our PE350-Plus and PE700-Plus panels can also fit standard ceiling grids with dimensions of 60*60cm and 60*120cm. All controls are covered with a 2 year warranty and the panels with a 5year warranty.

Features:

- ▶ Thin and timeless frame design
- ▶ Wall and Ceiling mounting
- ▶ Built-in thermostat receiver
